Oğuzhan Şentürk

With my software development experience of more than 10 years, I have experienced many technologies and innovations and I continue. Writing and producing software gives me pleasure.

Some of the technologies I use:
- .Net Core, Microservices Architecture, Layered Architecture, Monolithic Architecture
- Web Services(Rest,Soap)
- Relational Database (MSSQL, PostgreSql)
- NoSql(Mongo,CoachBase)
- Caching (Redis)
- MessageQueue(Rabbitmq,kafka)
- Single Page Application(React,Angulaar)
- Mobile(Xamarin,java,swift)
- Reporting (Elasticsearch)
- Containerization (Docker)
